NURSERY
STOCK

THE ABOVE DRAWING IS OF A HOME OF A SUCCESSFUL FARMER USING ONLY HUDMON'S HIGH QUALITY AND TESTED SEEDS.

SOJA OR SOY BEANS

Soy Beans Is the Largest Yielding and Most Nutritious of Summer Forage Crops. Also a Splendid Soil-Improver

MAMMOTH YELLOW SOY BEANS.

Soy beans will grow successfully on either light or heavy soils. In addition to their value as a forage crop and soil-improver they will make most nutritious hay, that always will bring a good price, on account of its high feeding value.

Soy Beans Particularly Valuable for Hogs. Soy Beans con-

tains more protein and fattening qualities than corn, therefore are particularly valuable to plant for hogs. can be planted by themselves for this purpose, and also in the corn middles and the hogs turned in to feed on the beans after they are ripe or after the corn is harvested.

Soy Beans when sown for a hay crop use one to one and one-half bushels to an acre. When sown in corn or drilled one peck to one-half bushel to an acre.

Soy Beans can be planted in April, May and June.

We will carry the two best varieties.

Mammoth Yellow Soy—This is the largest growing, the largest yielding and most popular variety of Soy Beans for all purposes, while not as early as the Black.

Price, peck (15 lbs.), 85 cents. One bushel, \$3.00; Write for prices in larger quantities.

Early Black Soy—A very early and prolific variety. Will mature in about 115 days.

Price, peck (15 lbs.), \$1.00; one bushel, \$3.25. Write for prices in quantity.

WE SELL EVERYTHING THAT IS PLANTED

Monthly Calendar for the Gardener and Farmer—When and What to Plant

FEBRUARY

Vegetable Garden.—This should be an active month both with the market and home gardener. In the open ground plant Irish Potatoes, English Peas, Onion sets, Salsify, Radish, Mustard, Early Turnips, Spinach, Carrots, Beets, Leeks, Parsnips, Asparagus, and Rhubarb roots. In hot beds, Cabbage, Collards, Lettuce, Tomato, Peppers, Egg Plant and Cauliflower. Set out Strawberry plants.

Field.—Early Burt Oats, Speltz, Beardless Barley, Canada Field Peas, Sudan Grass, many other grasses and clovers, and Spring Vetch.

Orchard.—Set out fruit and ornamental trees and grape vines. Spray your fruit trees.

Flower Garden.—Tub Rose bulbs put out this month make better bloomers. Gladiolus, Dahlia and Canna roots in the southern parts of these states can be planted the last of the month. The seed of Zinna, Pinks, Asters, Snapdragon, Candytuft, Sweet Allysum, Sweet Peas, Pansy and Daisy for late spring and summer blooming. Put out Privet Hedge, other shrubbery and roses.

MARCH

Vegetable Garden.—Continue to plant Beets, Carrots, Parsnips, Mustard, Spinach, Flat varieties of Turnips, Early varieties of English Peas, Bunch and Pole Beans. Irish Potatoes, Sugar and Garden Corn, Onion sets and Asparagus roots. The last of the month Okra, Lima Beans, Squash, Cucumber, Tomato, Pepper, Cabbage, Egg Plant, and Cauliflower in hot beds.

Field.—Burt Oats, Speltz and Barley can still be planted, also plant Lespedeza, Melilotus and other clovers, Bermuda, Sudan, Red Top and other grasses and early varieties of Field Corn. The middle to latter part of the month plant Soy Beans, Peanuts, Sorghum, Millets, Essex, Rape and spring Vetch.

Orchard.—Plant fruit trees and grape vines the early part of this month. To insure a good crop of fruit spray all trees well.

Flower Garden.—Sow Sweet Peas, Nasturtiums, Balsams, Cockscomb, Zinna, Portulaca, Candytuft, Amaranthus, Caladiums and other summer blooming annuals. Plant Tube Roses, Gladiolus, Dahlia and Canna roots, Evergreen Mixed Lawn Grass Seed. Put out Privet Hedge and other shrubbery and roses.

APRIL

Vegetable Garden.—All varieties of English Peas, Bunch and Pole Snap Beans, also Lima or Butter Beans, Squash, Cucumber, Okra, Melons, Cantaloupe, Garden Corn, Endive, Herbs, Lettuce, Cabbage, Tomato, Pepper and Egg Plant in open ground for summer, also Mustard, Turnips, Parsley, Radish, Beets, Carrots and all other vegetables.

Field.—Sorghums, Pearl Millet, German Millet, Peanuts, Chufas, Kaffir Corn, Soy and Velvet Beans, Field Corn, Sweet Potato plants, Cow Peas, Grasses, Clovers and Essex Rape.

Orchard.—Little can be done except keep trees clean of trash and weeds; budding and spraying.

Flower Garden.—Plant Nasturtiums and all other summer blooming annuals; set out Coleus, Salvia, Alternantheras, Begonia, Heliotrope, Pansy and other foliage and blooming plants, Tube Roses, Dahlias, Caladium, Gladiolus and Canna roots, Roses for late summer blooming; plant and renew lawn with Evergreen Lawn Grass Seed.

MAY

Vegetable Garden.—Melons, Squash, Cucumber, Pumpkins, late varieties of Garden Corn, late varieties of Irish Potatoes, and all other vegetable seed suggested for April.

Field.—Cow Peas, Sorghum, Peanuts, Soy and Velvet Beans, Chufas, Millets, Sweet Potato plants, late Field Corn, Lespedeza, Melilotus, Bermuda, Sudan and other grasses.

Orchard.—Keep the ground clean around the trees, bud and spary.

Flower Garden.—Follow the same suggestions as given for April planting. Keep plants growing, free of weeds and well watered. Using our high grade fertilizer will help them much.

JUNE

Vegetable Garden.—Sow Tomato, Cabbage and Collard for late crops, Corn for last supply of roasting ears. Texas Pole, Ky, Wonder, Creaseback, Pole Beans, also Lima Beans will do well for late crops planted this month. Melons, Pumpkins, Squash, Radish, Cucumber, Turnips, Mustard and many other vegetables, can be planted.

Field.—Cow Peas, Soy and Velvet Beans, Mexican and other field June Corns, Sorghums, Millets, Sweet Potato plants.

Orchard.—Nothing except keeping litter and weeds out, which bring insects; also give last spraying.

Flower Garden.—All plants should be worked and kept watered; all bedding plants, bulbs, and seed suggested in April can be planted this month.

JULY

Vegetable Garden.—This is one of the best months to sow Ruta Baga and some varieties of Turnips, Lookout Mt. Potatoes for second crop, Tomatoes for late crop, late Drumhead, Flat Dutch, Drumhead, Savoy, Autumn King Cabbage Seed planted this month will make fall and winter heads; summer varieties of Radish, Lettuce, Cucumbers, Bunch and Pole Beans for succession; Garden Corn highly fertilized will make late roasting ears; also Collards.

Field.—Cow Peas, Mexican June and other field Corn, Sorghums, Millets, Soy and Velvet Beans and Peanuts.

Flower Garden.—Plant Nasturtiums for late blooming; keep plants watered; use our sprinklers on your lawns.

EARLY FORTUNE CUCUMBER.

SELECT VEGETABLE SEEDS, ONION SETS AND POTATOES

SPRING PLANTING

Flower Bulbs

Caladium, or Elephant Ears

CALADIUMS, OR ELEPHANT EARS

The most effective plants for planting out upon the lawn.

Large bulbs, each, 20c; doz., \$2.25; parcel post paid. Not prepaid, by express, each, 15c; doz., \$1.75.

Mammoth bulbs, each, 45c; doz., \$4.50; parcel post paid. Not prepaid, by express, each, 35c; doz., \$4.00.

GLADIOLUS

One of the best and most dependable flowering bulbs. Plant from March to July.

America—Soft flesh pink, very fine.

Augusta—White, with lavender throat.

Chicago White—Pure White.

Francis King—Immense flowers, flamingo pink, blazed with red.

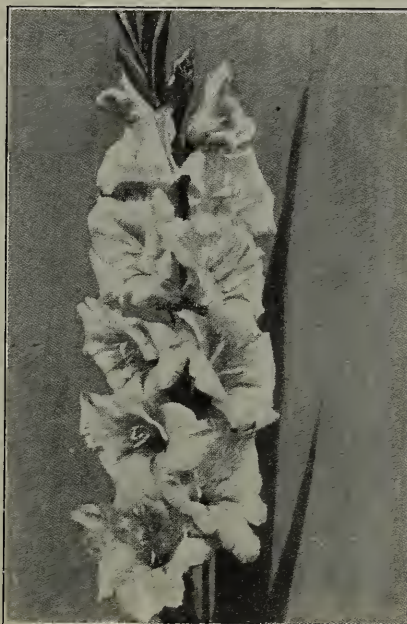

Price of any of the above varieties: Doz., 85c; 100, \$4.75; post paid. Not prepaid: ½ doz., 40c; doz., 75c; 100, \$4.50.

Panama—Brilliant pink.

Schawben—Canary yellow.

Niagara—Croom and pink.

Price of either of the 3 varieties above: Doz., \$1.00; 100 for \$6.00, post paid. Not prepaid, doz., 90c; 100, \$5.75.

Gladiolus

DOUBLE PEARL TUBE ROSES

Very fragrant flowers, larger than the common Tube Rose.

Price: Doz., 85c; \$5.35 per 100, post paid. Not prepaid, Doz., 75c; 100 for \$5.00.

CANNAS

These are very valuable as decorative plants in beds or back of lawns, both for their stately flowers and attractive foliage.

Crozy—Crimson scarlet with broad gold border.

Double Pearl Tube Roses

King Humboldt—Orange scarlet bronze foliage.

Pennsylvania—Fiery red, beautiful flower.

Richard Wallace—A pleasing, canary yellow, large flowers, five feet.

Florence Vaughan—Bright, rich, golden yellow, spotted with red.

Mrs. Alf. F. Conard—Salmon pink, four feet.

Price of any of the above varieties, 15c each, \$1.65 doz. Not prepaid, 15c each, \$1.50 doz.

DAHLIAS

These are one of our most beautiful summer flowers. Plant bulbs in March and April three feet apart. We have the large double varieties in the following colors: Yellow, Pink, Deep Red, Purple, White and Striped.

Price: 35c each, \$2.75 per doz., postpaid. Not prepaid, 25c each; doz., \$2.50.

FRUIT TREES, GRAPE VINES, ROSE BUSHES, PRIVET HEDGES

Our stock of the above comes from one of the most reliable Nurseries in the South.

Apple Trees—Those best suited for our climate. Early Harvest, Delicious, Hackworth, Stayman Winesap. Price—1 year trees, 4 ft. and up, 75 cents each.

Peaches—Elberta, Belle of Georgia, J. H. Hale, Carmen.

Price—1 year trees, 3 ft. and up, 75 cents each.

Pears—Le Conte, Kieffer. Prices—1 to 2 year trees, 4 ft. and up, \$1.00 each.

Plums—Burbank, Wickson, Abundance. Prices—3½ ft. and up, \$1.00 each.

Cherries—Large Montmorencie, Richmond. Prices—3½ ft. and up, \$1.00 each.

Grapes—Concord, Delaware, Niagara (white). Price—well rooted vines, 40 cents each; \$3.50 for 10.

Roses—American Beauty, Baby Rambler, Dorothy Perkins, Etoile de France, Frau Karl Druschki, General Jacquemont, Maman Cochet, Wm. R. Smith, Ulrich Brumer, Sunburst, Paul Neran—all of the above 80 cents each.

Marechal Neil, everblooming yellow climber, \$1.00 each.

Privet Hedge.—We supply both the California Privet and

Amor River Privet. Set Privet 12 inches apart in row.

California Privet, 2 year plants, \$7.50 per 100.

Amor River Privet, 2 year plants, \$10.00 per 100.

SPRING PLANTING

Flower Seeds

SPENCER SWEET PEAS.

SWEET PEAS

No flower has ever gained the deserved popularity of the Sweet Pea. Dig rows ten inches deep; put in 4 inches of well-rotted manure or pulverized sheep manure, with top soil well mixed. Plant seed in this and cover with loose black loam 2 inches deep, leaving the rows open, and fill in as the peas crack through, until you get to the surface of the soil. One ounce will plant about 10 to 15 feet.

SPENCER SWEET PEAS

Called also the Orchid Flower Sweet Peas. They have very large waved flowers, which are produced abundantly on long, strong stems; also three to four large blooms are usually to a stem.

Spencer Mixed—Packet, 10 cents; ounce, 25 cents; $\frac{1}{4}$ lb., 90 cents; $\frac{1}{2}$ lb., \$1.60; pound, \$2.85, post paid. Not prepaid: ounce, 25 cents; $\frac{1}{4}$ lb., 85 cents; $\frac{1}{2}$ lb., \$1.50; pound, \$2.75.

We can supply the Spencers in the following named varieties:

Countess Spencer—Giant flowered, clear pink.

White Spencer—Purest white, large blossoms.

Asta Ohn—Suffused lavender or tinted mauve.

King Edward—Brilliant crimson scarlet.

Flora Norton—Bright blue with tint of purple.

Yellow Spencer—Canary yellow.

Price, any of the above varieties, ounce, 35 cents; $\frac{1}{4}$ lb., \$1.00.

Grandiflora or the Old Standard Type of Sweet Peas.

Price. Choice Mixed—Pkt., 5 cents; 1 oz., 15 cents; 2 ozs. for 25 cents; $\frac{1}{4}$ lb., 40 cents; lb., \$1.25.

PULVERIZED SHEEP MANURE

One of the best and cheapest for lawns, flowers and the vegetable garden.

By using sheep manure as a fertilizer for your lawns you avoid having weeds in your lawn, that are brought there by the use of stable manure. Sheep manure is clean and easily handled, besides giving immediate results. Furnishes natural humus for the soil. Use it for a fertilizer for bulbs and flowers.

Price Sheep Manure—5 lbs. for 30 cents; 10 lbs. for 50 cents; 25 lbs. for \$1.00; 50 lbs. for \$1.75; 100 lbs. for \$3.25.

JAPANESE IMPERIAL MORNING GLORY

This is a rapid, robust climber, having beautiful large flowers, measuring from 4 to 6 inches across, of rich coloring. Packet, 10 cents; ounce, 25 cents.

The following list of Flower Seeds we sell for 5 cents per packet, 6 packets for 25 cents:

Asters, mixed.	Gaillardia.
Asters, white.	Gourds.
Asters, pink.	Hollyhocks.
Asters, crimson.	Larkspur.
Asters, blue.	Lobelia.
Alyssum, sweet.	Marigold.
Ageratum, dwarf blue.	Mignonette.
Amaranthus, mixed.	Morning Glory.
Antirrhinum (Snap Dragon).	Petunia, single.
Bachelor's Button.	Phlox, choice mixed.
Balloon Vine.	Pinks, mixed.
Balsam or Lady Slipper.	Poppy, single.
Candytuft, mixed.	Poppy, double.
Candytuft, white.	Portulaca, single.
Carnation, Margaret.	Portulaca, double.
Chrysanthemum.	Salvia, Scarlet Sage.
Cockscomb.	Stocks, 10 weeks.
Coreopsis.	Sweet William.
Cosmos, mixed.	Verbena, mixed.
Cypress Vine.	Wild Cucumber Vine.
California Poppy.	Zinnia, mixed.
Four O'Clock.	

Petunia—Double Fringed—Pkts. 25 cts. each

Evening Glory (white), heavy climber—Pkt. 10 cts. each.

NASTURTIIUMS

NASTURTIIUMS

For ease of culture, duration of bloom, brilliant coloring, there is no summer blooming flower that excels the Nasturtium. They will bloom from a few weeks after planting until frost.

Tall Choice Mixed Nasturtiums—Packet, 5 cents; ounce, 15 cents; $\frac{1}{4}$ lb., 40 cents; 1 lb., \$1.25.

Dwarf Choice Mixed Nasturtiums—Packet, 5 cents; ounce, 15 cents; $\frac{1}{4}$ lb., 40 cents; 1 lb., \$1.25.

OUR GIANT PANSIES

Our seeds are from the world's famous Pansy Growers, whose flowers are of the richest colors and largest size. Each flower is a gem of velvet and gold, blotched and mottled of many tints. Plant seed in fine, loose soil, cover lightly.

Price, per packet, 10 cents; 3 packets for 25 cents.

IMPROVED FIELD CROP

Seed Corn

Our Seed Corn are grown for us by experienced corn breeders who have for years given personal attention to selection of seed stock, with special reference to trueness of type and heavy yielding qualities.

We consider it as important to the farmer to have pure bred Seed Corn as it is to have thoroughbred live stock.

Plant from April to the 1st of July. Four to six quarts will plant an acre, having rows 4 feet apart; dropping 2 to 3 grains 2 feet apart in row, thin to one stalk. Cultivate often and shallow.

Neal's Paymaster—This variety was originated about eighteen miles from Nashville. It is similar in type, as shown by the cut below, which is from a photo of corn from which our seed stock comes, of the well-known Tennessee White Red Cob Corn; but it produces two ears to every stalk and the cob much smaller, with well-filled butts and tips. Also will shell more corn. Our seed stock is especially grown for us by an experience corn breeder. All ears carefully selected, nubbed and tipped, and is an exceptionally fine grade of Seed Corn. On account of the heavy yielding qualities of fine, large corn, we consider the Paymaster is deemed to be the most popular corn for general main crop, as it is better known. Please remember the seed stock that we are offering is Field Selected, Pedigreed Stock. It will pay to plant the Best Seed Corn, such as we are offering.

Price—Peck, \$1.00; Bushel, \$3.25. Write for prices in quantity.

Hudmon's Whatley Prolific—It has been shown by reports from Alabama, Georgia and other Experiment Stations, that this variety is the greatest yielding Prolific Corn in the South. Having the deepest grain of any Prolific Corn. On a small cob, being exceedingly well filled at tip and butt. Unlike other prolific varieties, it is a red cob corn, and makes a most attractive appearance on the market.

Boys, Members of Corn Club, should use this variety, as the largest yields ever known were made with Whatley Prolific. Our seed stock is hand-selected, nubbed and tipped, which insures for you the best.

Price—Peck, \$1.10; ½ Bushel, \$2.00; Bushel, \$3.75.

Tennessee Red Cob (White)—This very popular variety of large grain, handsome, large-eared corn, is familiar to every progressive farmer, and our being in the section which is the home of this variety, where the best quality of seed are produced, you can have assurance of getting the Best Grade of seed by giving us your orders.

Price—Peck, 90 cents; ½ Bushel, \$1.50; Bushel, \$2.75.

Strawberry—We have an improved strain of this very fine, large-eared, striped corn. Those wishing to plant this Strawberry Corn would advise to order early as stock is limited.

Price—Peck, \$1.00; ½ Bushel, \$1.85; Bushel, \$3.50.

Bloody Butcher—This is the standard red grain corn grown for many years and a favorite in some sections. It produces a large grain on a large cob. Our stock of this corn is carefully selected and very fine. Stock limited.

Price—Peck, \$1.00; ½ Bushel, \$1.85; Bushel, \$3.50.

Boone County White—Boone County Corn continues to be one of the most popular and satisfactory corns where ever grown. It is one of the standard white corns of the South, is something like the Silver Mine, only larger, and later in maturing. On upland lands or good light loam soils, it is a large yielding variety.

It has a white cob of medium size. The grains are creamy white, very large and deep. Foliage abundant.

Price—Peck, 90 cents; ½ Bushel, \$1.50; Bushel, \$2.75.

Iowa Silver Mine—(85 days.) One of the best early maturing varieties of white corn. It gives universal satisfaction throughout the South. Silver Mine Corn is pure white, grain is solid, dented and produces fine meal. Ears grow from 8 to 12 inches long, with 16 to 18 rows of pure white corn. Every stalk will bear one large ear, sometimes two or more. It is also one of the best early varieties you can plant for early green feed and silage.

Price—Peck, 90 cents; ½ Bushel, \$1.75; Bushel, \$3.25.

Iowa Gold Mine—(85 days.) This very early variety maturing in about 85 days, ears of good size, color a bright golden yellow, cob small. While the grain is slightly larger than Reid's Yellow Dent.

It is not as large as our Cumberland Yellow Dent. It is very popular where an early yellow corn is desired.

Price—Peck, 90 cents; ½ Bushel, \$1.75; Bushel, \$3.25.

Reid's Yellow Dent—The leading standard yellow variety, for early maturing—will mature large, fine corn in 100 to 110 days. Color of grain, medium yellow, with light cap. Grain very deep, closely packed.

Price—Peck, 90 cents; ½ Bushel, \$1.75; Bushel, \$3.00.

Cumberland Yellow Dent (Tennessee Grown)—This has proven to be a very popular yellow corn for all sections of the South. Grain deep, large, golden yellow. Ears are of perfect shape, well filled out, both butt and tip. It is the best type of the large-eared yellow varieties, Southern grown.

Price—Peck, \$1.00; ½ Bushel, \$1.85; Bushel, \$3.50.

Hickory King—(100 days.) The corn is famous for its small cob and large, broad, white grain. Will mature in 100 to 110 days. Nearly all stalks bears 2 ears or more. Hickory King is well adapted to thin land, where most other varieties do not do so well. Our seed stock of this variety is Tennessee grown, which is especially well adapted to all sections.

Price—Peck, 90 cents; ½ Bushel, \$1.75; Bushel, \$3.00.

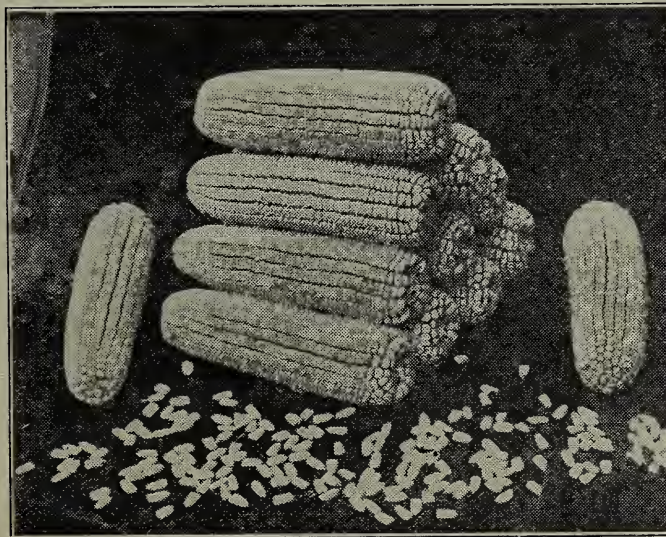

Snowflake, Improved Southern—This is a most valuable field variety, one that makes a large yield and when ground makes meal of the finest quality. It also makes a splendid roasting ear corn, being deepgrained, producing large-sized ears of a shape that is most salable for green corn in our markets. It is an early and quick-growing variety, maturing its crops in about 100 days. It grows about 8 feet in height; ears set 4 to 5 feet from the ground. Nearly always produces 2 ears to the stalk. Does not blow down easily, and is valuable for replanting. Will make good corn in poor land where other sorts with large stalks will fail. Our market-garden customers will find this a particularly valuable sort for making green corn to sell for roasting ears.

Price—Peck, \$1.00; ½ Bushel, \$1.90; Bushel, \$3.75.

Tucker's Favorite—It is a white corn, with good depth of grain, tender and sweet, and makes a most desirable size for roasting ears. Besides being a fine garden corn, it makes a splendid field corn for early use and to follow potatoes and other early crops. We introduced this variety in this section last season, and from plantings in July we saw some very fine large ears in roasting ear stage long before frost.

Price—Peck, \$1.00; ½ Bushel, \$1.90; Bushel, \$3.75.

We will have Mexican June Seed Corn in June and July.

NEAL'S TWO-EARED PAYMASTER.

Pop-Corn

SHELLED POP-CORN FOR SEED.

This will be found very profitable, as it will yield well even in unfavorable weather. It matures early and can be fed with profit to your stock, especially pigs, calves, etc. Then you will please the Boys and Girls by giving them a Pop-Corn patch.

Monarch White Rice—A standard popular variety. The stalks grow taller, the ears a little longer than other varieties.

Price—Pkt., 10 cents; Pound, 25 cents; 2 Pounds, 45 cents, postpaid. Not prepaid, 10 Pounds for \$1.75.

New Golden Queen—This beautiful variety has grains orange yellow, round and smooth, pops perfectly white. The large ears are born in abundance.

Price—Pkt., 10 cents; Pound, 25 cents; 2 Pounds, 45 cents, postpaid. Not postpaid, 10 Pounds for \$1.75.

REMEMBER

That Pure Bred, Field Selected Seed Corn, such as we are offering you, will yield more than the ordinary corn offered for seed corn, therefore, will be cheaper for you to plant.

GARDEN SEED CORN FOR ROASTING EARS WILL BE FOUND LISTED ON PAGES 2 AND 3

CLOVERS

The value of Clovers is being appreciated more each year. It is important to have Clover in your pastures. Clovers are great soil builders. Clovers make very nutritious hay. Remember, to be successful with Clovers or Alfalfa, you must lime your land and do not stint your land in amount of seed sown. Also sow the best quality of seed.

We only sell one grade of Clover Seed, and that is the best quality to be had. It pays to plant the best.

MEDIUM RED CLOVER

This variety is regarded as one of the most valuable of the Clover family. Will make two crops each year. When sown alone, sow 12 to 15 lbs. to an acre. If sown with Red Top, Orchard Grass or Timothy, use 6 to 8 lbs. of Clover in mixture.

Price: Pound, 45 cents, post paid; by express or parcel post, not prepaid, pound, 35 cents; 10 to 15 lbs. at 30 cents per lb. Write for bushel prices.

ALSIKE CLOVER

This Clover is better adapted to lower lands than any of the other varieties, is excellent to put in mixtures of Red Top and Timothy. When sown alone, 8 to 10 lbs. to an acre; in mixtures, 4 to 5 lbs. to acre.

Price: 50 cents per lb., post paid; not prepaid, pound, 40 cents; 8 to 15 lbs. at 35 cents per lb. Write for bushel price.

LESDEPEZA OR JAPAN CLOVER

Japan Clover is very hardy in the Southern States, will grow either on hillsides or low places. It is a rapid grower, furnishing very nutritious pasture, relished by all live stock. Once started it will soon spread to a dense mass. Can be sown from February to May, at the rate of one bushel (25 lbs.) to an acre.

Price: Pound, 35 cents; bushel, \$7.00.

ALFALFA

The most valuable Hay, Pasture and Fertilizing Crops Grown on the Farm. The most valuable asset Alfalfa is that it will produce an enormous crop of very nutritious hay and at the same time highly enrich the soil, producing more than twice the amount of nitrogen as red clover. Alfalfa is a valuable pasture crop. All stock relish and thrive on it better than any other feed. Land for Alfalfa should be well prepared and at least two tons of lime to an acre used. Sow from 20 to 25 lbs. of the best seed per acre. Also inoculate your seeds. We can supply Mulford's Culture for inoculation. Our seeds will test 99.50 pure.

Price: 45 cents per lb., post paid; not prepaid, pound, 35 cents; 15 to 20 lbs., 30 cents per lb. Write for prices in larger quantities. Mention quantity wanted.

MAMMOTH OR SAPLING CLOVER

This clover closely resembles the Medium Red Clover, but makes a ranker growth. It is extremely hardy and will flourish on lands that are too heavy for medium Red Clover. The same amount is used to an acre.

Price: Pound, 45 cents, post paid; not prepaid, pound, 35 cents; 10 to 15 lbs. at 32 cents per lb. Write for bushel prices.

CYCLONE SEED SOWER

Will sow Clover, Millets, Oats, Rye, Timothy Grasses, Wheat, Peas, Sorghum, etc. Sows uniformly, saves time and money.

Price: \$3.00 each. If by mail, postpaid, \$3.25 each.

DWARF WHITE DUTCH CLOVER

Of great value in permanent pasture mixture, also largely used in lawns. The seed are very small and only 5 to 6 lbs. to an acre, while it is usually best sown with other clovers and grasses requiring a smaller quantity.

Price: 85 cents per lb., post paid; not prepaid, 75 cents per lb.; 10 lbs. and over at 70 cents per lb.

RED CLOVER.

MELILOTUS OR SWEET CLOVER—WHITE BLOOMING

We believe it is almost impossible to overestimate the value of this variety of Clover. It is being more extensively grown as it is better known. A quick maturing clover, producing a thick mass of luxuriant foliage. The feeding value of Sweet Clover hay is the same as that of alfalfa and superior to red clover. It will grow in thinner soil than other clovers. Is a great fertilizer of the soil. Having the same bacteria as alfalfa, is often used to inoculate the land where alfalfa is to be sown. It is also one of the best for bees. Sow 15 lbs. to an acre. We only handle the best hulled or re-cleaned seeds.

Price: Pound, 30 cents, post paid; not prepaid, 20 cents per lb., 15 lbs. at 15 cents per lb. 100 lbs., \$13.00.

Mulford Cultures

FOR LEGUMES

Increases your Crop, Improves your Soil. Mulford Cultures contains pure, tested strains of active, vigorous nitrogen-fixing bacteria for inoculating seeds of legumes. Use with Soy Beans, Velvet Beans, Cow Peas, Garden Peas, Red Clover, Alsike Clover, White Clover, Sweet Clover, Alfalfa, Peanuts, Sweet Peas, and other legumes.

Price—5-acre size, \$5.00. By parcel post, \$5.15.
1-acre size, \$1.50. By parcel post, \$1.60.
1/4-acre size, 50 cents. By parcel post, 55 cents.
Small size (supplied only for Garden Peas, Garden Beans, and Sweet Peas), 25 cents.
Always specify the crop wanted for.

All Prices on Clovers Subject to Change

CRIMSON AND BUR CLOVER SEEDS ARE SUPPLIED BY US AFTER JULY 1

CENTENNIAL PARK EVERGREEN LAWN GRASS SEED

HUDMON'S CENTENNIAL PARK LAWN GRASS SEED

In the South we often have trouble in getting good lawns because it has been found that no one grass will give satisfactory results at all seasons and on all soils. By careful experiments we have succeeded in getting a combination of grasses that will produce an evergreen lawn, giving permanency and beauty of sward. By the use of our **Centennial Park Evergreen Mixed Lawn Grass Seed**, a rich velvety green lawn can be made and maintained. One pound will sow a space 10x30 feet (or 300 square feet), 75 to 90 lbs. to an acre.

Price of Seed: 1 lb., 35 cents, 3 lbs. for \$1.00; 20 lbs. and over at 30 cents per lb. If by mail, 10 cents per lb. extra for postage.

SHADY PARK MIXED LAWN GRASS SEED

This is a mixture of grasses especially adapted for growing in shady places.

Price of Seed: 1 lb., 50 cents, 5 to 10 lbs. at 45 cents per lb. By mail post paid, per lb., 60 cents.

Fertilize your lawns with our Bone Meal and Pulverized Sheep Manure.

GRASSES AND FIELD SEEDS

Orchard Grass—Extremely popular and valuable in the South, valuable for either permanent pasture or for hay. Sow 1½ to 2 bushels to an acre. Seed we sell is the best quality.

Price: 1 bushel (14 lbs.), \$2.35; 5 to 10 bushels at \$2.25 per bu.

English Perennial Rye Grass—This is a very quick growing grass. Valuable on account of its permanent green for pastures and meadows. Succeeds on most any soil. Sow 30 to 40 lbs. to an acre.

Price: 20 cents per lb.; 30 to 40 lbs. at 15 cents per lb.

Fancy Kentucky Blue Grass—Well adapted for lawns and of high value in permanent pasture mixtures. Sow 2 to 3 bushels to an acre, or for lawns 1 lb. to 300 square feet.

Price: 1 lb., 40 cents; bushel (14 lbs.), \$4.25. By mail, 1 lb., 50 cents, post paid.

Bermuda Grass Seed—This grass will succeed well on any kind of soil. The principal objection is it dies down in the winter. Bermuda delights in sunshine and warmth. It is largely used in lawns, on terraces and for holding soil on embankments. A vigorous grower in the hot summer and valuable as a summer pasture. Sow 8 to 10 lbs. to an acre in April and May in this section. Farther south can be sown earlier.

Price, 85 cents per lb., postpaid; not prepaid, 75 cents per lb.; 8 to 10 lbs. at 65 cents per lb.

Fancy Recleaned Red Top or Herd's Grass—A valuable permanent grass, well adapted to either wet or dry land. Though making its best growth in low, wet lands, and because of its ability to stand extreme moisture is extensively used throughout the South. While in great demand in some sections for hay, it is chiefly valuable as a pasture grass. We only sell the best recleaned seed of Red Top. Sow 8 to 10 lbs. to an acre.

Price: 30 cents per lb., post paid; not prepaid, 20 cents per lb.; 10 lbs. at 18 cents; 25 to 50 lbs. at 16 cents per lb.; 100 lbs. at 15 cents per lb.

Timothy (Fancy Recleaned)—This is one of our most valuable grasses for hay. It is not suited for light or sandy soil as some other grasses, but is a vigorous grower on good and low land, yielding more nutritious matter than any of the other grasses. Sow 10 to 15 lbs. to an acre; if in combination of Red Top and Alsike Clover, about half the quantity.

Price: 1 lb., 25 cents, post paid; not prepaid, 1 lb., 15 cents; peck (11¼ lbs.), \$1.25; bushel (45 lbs.), \$4.00.

Sudan Grass—Sudan Grass is an annual of quick growth. The first crop is ready to cut in 50 to 70 days from sowing and will yield four crops in season of very nutritious feed. When seeded with a drill, about 8 to 10 lbs. to an acre. If sown broadcast, from 15 to 20 lbs. are required. We have issued a special circular on Sudan Grass. If you do not get it with this catalog, write for it.

Price: 20 cents per lb., post paid; not prepaid, 1 lb., 10 cents; 50 lbs. for \$4.00; 100 lbs. for \$7.00.

Permanent Pasture Mixtures—We make special mixtures of grasses selected with a view of having a succession of grasses coming on constantly.

No. 1. For high, dry, gravelly soil.

No. 2. For medium soils.

No. 3. For high, dry, heavy or clay soils.

No. 4. For moist or low lands.

It requires about 22 to 25 lbs. of either of these mixtures to sow an acre.

Price: 30 cents per lb.; in 20 to 25 lb. lots at 28 cents per lb.; 100 lbs. for \$25.00.

Prices named here on Grasses and Forage Crops are Subject to Change.

Sacks for Clovers, Red Top, Timothy and Millet are charged at cost, 25 cents for 1 bushel bags, 50 cents for 2 bushel sacks. No charge made for sacks of other seeds.

Soy Beans—A full description and price on front page.

90 Day Early Speckle Velvet Beans—This is a famous forage and soil improving plant. Not only are Velvet Beans valuable as a soil building crop, but they make most nutritious feed. Plant from March to June in drills about 1 peck to an acre.

Price: Peck, 65 cents; 1 bushel, \$2.00; sack, \$1.75 per bushel.

Cow Peas—We will handle large quantities of the following varieties: Brabham, Whippoorwill or Speckle, Clay, Unknown or Wonderful, Black Eye, White and Mixed. Write for our prices.

Burt Oats, sometimes called 90 Days or Early May Oats—Our Burt Oats are Tennessee grown, which will be 10 days to 2 weeks earlier than other varieties. Write us for prices on quantity wanted.

Tennessee Golden Millet—This section is the home of the best Millet seed, which is far superior to the Western Millet. Our Tennessee Millet grows taller, is earlier and heavier yielding than Millet from any other section. Plant 1½ to 2 bushels to an acre. Write for our prices on quantity wanted.

Pearl or Cat Tail Millet—This is only used for cutting for green feed, grows rapidly after cut, practically giving you a continuous cutting green forage crop. Sow 5 lbs. in drills 3 feet apart, or 20 to 30 lbs. to an acre broadcast.

Price: 35 cents per lb., post paid; not prepaid, pound, 25 cents; 5 lbs. at 20 cents per lb.

Dwarf Essex Rape—Rape is one of the quickest and cheapest pasture crops for sheep, young cattle, hogs and poultry. As a healthy, fattening pasture food it has no equal. If sown broadcast, 8 to 10 lbs. to an acre; in drills, half this amount.

Sorghum Cane Seed—We are large dealers in all varieties of Cane Seed. Will be in position to quote very attractive prices on

Early Orange, Early Amber, Early Red Top and Japanese Seeded Ribbon Cane Seed (best for syrup). Write us for prices on quantity wanted; also for prices on Buckwheat, Peanuts, Canada Field Peas, Broom Corn, and other seeds not listed in this catalog.

INSECTICIDES, FUNGICIDES, SPRAYERS, FERTILIZERS

Dry or Powdered Lime Sulphur—(For San Jose Scale). This is recognized by the best authorities, and is now most generally used, also the most effective remedy for San Jose and Oyster Shell Scale, and kindred insects that kill valuable fruit and shade trees.

The advantage you have in using the Dry Lime Sulphur is that you can use it as you need it. You don't have to pay freight on water (as you did with the liquid).

For Winter and Early Spring Spraying, which is very important to insure good fruit and increased yield, use 12 to 15 lbs. of Dry Lime Sulphur to 50 gallons of water.

Price—1 lb., 45 cents; 5 lbs., \$2.00; 10 lbs., \$3.00; 25 lbs., \$6.25; 50 lbs., \$9.00. If by mail, 1 lb., 50 cents; 5 lbs. for \$1.90; 10 lbs. for \$3.25, postpaid.

Dry or Powdered Bordo—Cures and controls blight. This not only will prevent blight, fungus diseases of plants and fruits, but improves the quality and very largely increases the yield. It should be used on all crops such as melons, cucumbers, tomatoes, grapes, etc.

Price—1 lb., 60 cents; 5 lbs. for \$2.50; 25 lbs. for \$8.75.

Dry or Powdered Arsenate of Lead—This is absolutely safe to use; does not burn the foliage. It is superior to Paris Green, as it will stick to the foliage longer, and will not burn or scald the foliage. Will positively kill every insect that will eat it. Can be used dry or made in solution. If in solution use 1 to 2 pounds to 50 gallons of water.

Price— $\frac{1}{2}$ lb., 35 cents; 1 lb., 65 cents; 5 lbs. for \$3.00; 10 lbs. for \$5.00.

Paris Green—For Leaf-eating Insects. This is a strong poison and should be used with care. Mix 1 lb. Paris Green with 50 lbs. of land plaster or lime or 150 gallons of water.

Price— $\frac{1}{4}$ lb., 25 cents; $\frac{1}{2}$ lb., 35 cents; 1 lb., 60 cents; 2 lbs., \$1.10; 5 lbs. for \$2.75.

BUG DEATH.

Is a fine, tenacious, reddish brown powder. Does not contain Paris Green or Arsenic, therefore, is non-poisonous, and is safe and sure to use on vegetables, house plants, fruit trees, shrubbery, etc. Kills Bugs and Worms on Potatoes, Tomatoes, Egg Plants, Cucumber and Melon Vines, etc. Prevents Blight.

Price—1 lb. (sprinkle top) pkg., 25 cents; 3 lb. pkg., 65 cents; 5 lb. pkg., 85 cents; 12 $\frac{1}{2}$ lb. box, \$1.50. If by mail, 1 lb. pkg., 35 cents; 3 lbs., 75 cents; 5 lbs., \$1.00.

SLUG SHOT.

Destroys insects and worms on garden and house plants, potatoes, cabbage, shrubs, trees, vegetables and fruits, and kills lice on poultry. Positively not poisonous, and will not injure the foliage. May be applied dry or in water. By mail postpaid, 5 lb. pkg., 80 cents. By express or freight, 65 cents per 5 lb. pkg.; 10 lbs. for \$1.25; 25 lbs. for \$2.50; 100 lbs., \$9.00. Small dusters for applying, 12 cents; by mail, 15 cents. Large dusters, 60 cents; by mail, 75 cents.

DICKEY DUSTERS.

A long tin tube with fine perforations at one end. This will be very convenient for those who only want a small distributor for dry or powdered insecticides or fungicides. Price—50 cents. If by mail, postpaid, 60 cents.

SPRAYERS.

Myers Barrel Sprayer, with 15 feet of $\frac{1}{2}$ -in. 5-ply hose and spray nozzle, complete for\$17.40
Myers Bucket Sprayer, No. 324, for 8.50
Myers Bucket Sprayer, No. 327 $\frac{1}{2}$, for 5.50
Lowell Special Tin Hand Sprayer, each50
Extension Rods for Sprayers65

FERTILIZERS.

Pulverized Sheep Manure.

One of the best and cheapest for lawns, flowers and vegetable garden.

By using sheep manure as a fertilizer for your lawns you avoid having weeds in your lawn, that are brought there by the use of stable manure. Sheep manure is clean and easily handled, besides giving immediate results. Furnishes natural humus for the soil. Use it for a fertilizer for bulbs and flowers.

Price Sheep Manure—5 lbs. for 30 cents; 10 lbs. for 50 cents; 25 lbs. for \$1.00; 50 lbs. for \$1.75; 100 lbs. for \$3.25.

BONE MEAL.

We guarantee our bone meal to run 25 per cent total Phosphoric Acid, and not less than 4 $\frac{1}{2}$ per cent of Ammonia. Bone Meal is a fine fertilizer for all kinds of Fruit Trees, Rose Bushes, Grape Vines, Bulbs, Geraniums, Ferns, Palms and other pot plants; with Grass Crops, whether for pasture, hay or lawn. Bone Meal will be found a valuable fertilizer, for it is giving plant food all during the growing season, as the bone is steadily dissolved.

Price—5 lb. bag for 25 cents; 10 lb. bag, 45 cents; 25 lb. bag, \$1.00; 50 lb. bag, \$1.90; 100 lb. bag, \$3.50; 200 lb. sack, \$6.75.

NITRATE OF SODA.

This is the most soluble and quickly available form of Nitrogen or "Ammonia." It is of great benefit in forcing a strong, luxuriant growth in plants. It is especially valuable for cabbage, cauliflower, beets, carrots, onions, potatoes and similar crops, as well as for grass, grain, fruits and flowers. Use 100 lbs. to an acre. By freight, 2 lbs., 25 cents; 25 lbs., \$2.00; 100 lbs., \$6.00.

We are in position to supply High-Grade Fertilizers for Home and Market Gardeners. Ask for our prices on Special Truck Grower, also Corn Special Fertilizer, and 16% Acid Phosphate.

SULPHO-TOBACCO SOAP.

A wonderful insecticide and fertilizer for both flowers and vegetables. Never fails to quickly exterminate all insects. Excellent for preventing mildew and lice on roses; helps to grow healthy plants and beautiful flowers. Absolutely safe to handle. Sure death to all plant insects in and out of doors. Full directions with each cake. 3 oz. cake, 10 cents; 8 oz. cake, 25 cents, postpaid. A 3 oz. cake makes 1 $\frac{1}{2}$ gals. of solution; an 8 oz. cake makes 4 gals.

BLACK LEAF 40.

For Sucking Insects.—Kills plant lice on roses, shrubbery, fruits and vegetables. A concentrated solution of nicotine sulphate, guaranteed to contain not less than 40 per cent of nicotine. A solution in the proportion of a teaspoonful to a gallon of water, to which add 4 lbs. soap to each 100 gallons of solution, will kill the garden pea louse and not injure the vine. Mix with 800 times its bulk of water. 1 oz. bottle, 25 cents; $\frac{1}{2}$ lb., \$1.00; 2 lbs., \$3.75; 10 lb. pkg., \$13.75. Cannot be mailed.

PRATT'S SCALECIDE.

Cures and prevents San Jose Scale. One of the best dormant sprays; easy to apply. Not poison. By freight only: 1 qt., 75 cents; gal., \$1.85; 5 gals., \$7.00.

POULTRY FEEDS AND POULTRY SUPPLIES

FUL-O-PEP POULTRY FEED

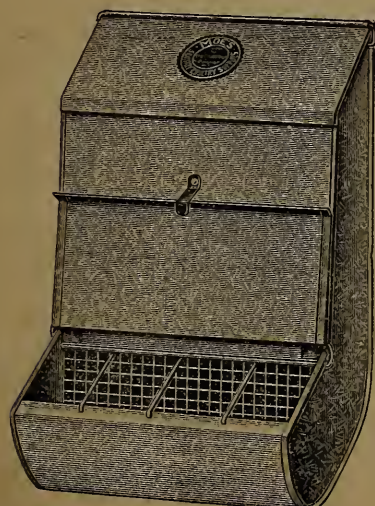

FUL-O-PEP SCRATCH FEED contains no grit or shell. Every ounce is pure, sound grain. The mixture is scientifically prepared to make it the best balanced ration, especially when fed in conjunction with Ful-O-Pep Dry Mash. It contains such grains as Corn, Wheat, Buckwheat, Barley, Kaffir Corn, Sunflower Seed, etc.

FUL-O-PEP DRY MASH—the feed that produces the eggs—should be fed in open hoppers at all times. Ful-O-Pep Dry Mash—not Scratch Grains produces eggs without forcing or fattening.

We carry and recommend to poultry raisers for the best results Ful-O-Pep Scratch, Ful-O-Pep Dry Laying Mash, Ful-O-Pep Growing Mash for little chicks, Ful-O-Pep Chick Grain. Put up in 50 and 100-lb. bags. Write for prices, also the Ful-O-Pep 54 page Calendar Book, valuable to every poultry raiser. It is free.

We sell Crushed Oyster Shells, Grit, Charcoal and Beef Scraps for poultry. Write for prices.
